

Open Statement of Financial Information

Mr A and Mrs A

We, Mr A and Mrs A have been in mediation with Polly Gavins and Roger Cullen of Oxfordshire Family Mediation, in order to assist in the resolution of various issues regarding ourselves, our children and the financial issues consequent upon our separation/divorce.

This Open Statement records on a formal and open basis the financial information disclosed by each of us and which has formed the basis of discussions in mediation and any proposals that have resulted from such discussions. The need for full financial disclosure has been explained to us and supporting documents produced where practical and where requested. We acknowledge that no independent verification has been undertaken by the mediators as to accuracy or completeness other than is referred to specifically in this statement.

We both confirm that our financial disclosure is complete. The assets have been valued as at 31st January 2013 but we have noted significant changes since that date in the Open Statement and have provided evidence of these revised figures. We have agreed that the values in the statement should form the basis of any proposals for financial settlement.

A separate Memorandum of Understanding which is "Without Prejudice" and "Legally Privileged" is attached. This Memorandum relates to our discussions in mediation and sets out the outcome and our proposals.
